Summary

QA Engineer with 1+ year of experience in Manual Testing, API Testing, Regression Testing, Smoke Testing, Sanity Testing, and UI Testing across web and mobile applications. Skilled in designing and executing test cases, identifying and tracking defects, validating REST APIs using Postman, writing SQL queries, and collaborating within Agile/Scrum teams to deliver high-quality software releases. Available for full-time remote work.

Skills

Testing: Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, UI Testing, API Testing, REST API Testing

Test Management: Test Case Design, Test Planning, Defect Tracking, Bug Lifecycle Management, SQL

Tools: Jira, ClickUp, Postman, JMeter, Git, Excel

Methodologies: SDLC, STLC, Agile, Scrum

Experience

QA Engineer

Sep 2025 – Present

Beyond Technologies

Lahore, Pakistan

- Designed and executed 70+ test cases ensuring regression stability and production-ready releases.
- Performed REST API testing using Postman to validate backend responses and data integrity.
- Used Jira for defect tracking and management throughout the bug lifecycle.
- Conducted performance testing using JMeter to identify bottlenecks before release.
- Actively participated in Agile/Scrum ceremonies including sprint planning and defect triage.

Junior QA Engineer

May 2025 – Aug 2025

Second Wings

Lisbon, Portugal (Remote)

- Executed smoke, sanity, and regression testing across multiple CI/CD releases.
- Logged and tracked 30+ defects in ClickUp ensuring timely resolution with development team.
- Wrote SQL queries to validate data integrity and backend database consistency.
- Improved release quality by early identification and reporting of critical issues.

QA Intern

Nov 2024 – Apr 2025

MGlowus

Lahore, Pakistan

- Created 40+ test cases for functional modules ensuring system reliability.
- Performed REST API testing using Postman and validated data flow between systems.
- Tracked and reported defects using ClickUp following standard bug lifecycle process.

Projects

PRYZM

Sep 2024 – Jan 2025

QA Project

- Executed 50+ functional and regression test cases ensuring stable release cycles.
- Reported and tracked critical defects in Jira and verified fixes after regression cycles.

Bio Fusion

Feb 2025 – Apr 2025

QA Project

- Performed smoke and sanity testing before production deployments in Agile environment.
- Validated core business workflows and identified issues prior to release.

VC Invest

Nov 2024 – Jan 2025

QA Project

- Created test cases for investment workflows and validated REST APIs using Postman and SQL queries.
- Collaborated with developers to reproduce defects and verify fixes during regression testing.

Education

Bachelor of Science in Computer Science

2021 – 2025

University of Central Punjab

Lahore, Pakistan
